### LOCAL NOTES.

Silver is quoted at 65 1/2.

Tucson will elect city officers on the 14th instant.

There are six candidates for governor in the territory.

Congressman Fowler, of New Jersey, is in Prescott on mining business.

El Paso is boasting of a cigar factory that employs eighty-five hands.

The early morning burglar is the one who catches the worm these days.

Flagstaff will have a fine system of water works in operation next summer.

The Irrigation Congress at Phoenix Arizona, next month promises to be a great success.

Holland Herring, Limberger Cheese, and Sauer Kraut, at Hoefler's.

Since last July the Black Jack Bandits have traveled 4,000 miles in their work of robbery and death.

The territorial press is kicking vigorously against marriage between consanguine, and wants a law passed to prohibit it.

Precious metal statistics for the territory are being prepared by Professor Blundy, of Prescott, for the director of the Washington mint.

A. C. Manchard a cattleman of Pima county is over on a business visit and will remain a few days.

The Phoenix Gazette affirms that the law of supply and demand goes all to pieces when applied to the supply and demand for opium.

## RICH SECTION.

### A Visitor to Tombstone From the Pecos District.

Mr. Jas. F. St. Clair, a mining man interested in Pecos mining district near Yuma, is a visitor to Tombstone. Mr. St. Clair states that his section is proving a bonanza producer. Eastern capitalists have acquired some property there which in every instance are proving valuable producers for their owners.

The Capella, White Gold, Golden Dreams, Noonday and Leon groups of mines, owned by various companies, are among those working, and the erection of mills on two of these properties will soon be in progress.

Mr. St. Clair states that a rich strike of \$2,000 ore was found in one of the mines there last week, being a big chamber the extent of which has not yet been determined. It is cautiously guarded and worked.

"We had an epidemic of dysentery in this vicinity last summer," says Samuel S. Pollock, of Briceland, Cal. "I was taken with it and suffered severely until some one called my attention to Chamberlain's Colic, Cholera and Diarrhoea Remedy. I procured a bottle and felt better after the first dose. Before one-half of the bottle had been used I was well. I recommended it to my friends and their experience was the same. We all unite in saying it is the best." For sale by Druggists.

**Chamber of Commerce Meeting.** There will be a special meeting of the Chamber of Commerce at the office of J. V. Vickers at 7 p. m., Dec. 1st to consider:

1st. Six years national presidential term instead of four.

2nd. Hon. Whitelaw Reid's editorial essay regarding Arizona, and the advisability of our issuing it to advertise our locality. Respectfully, J. V. VICKERS, President.

## BLACK JACK'S STORY.

### His Narrow Escape at the Deer Creek Fight.

"Black Jack" visited the Holming brothers' ranch the other day and told a story of the fight at Deer creek, which varies slightly from the one told by the officers. It was Black Jack himself, not Jeff Davis, who was riding with Bob Hayes. When the shooting commenced his horse began to buck and his pistol flew out of his holster. Then his horse was shot and fell on his Winchester. He turned the horse over, got his gun and then ran and hid behind a cactus. The officers hunted for him and at one time were within twenty feet of him but failed to see him. When they abandoned the hunt he gracefully retired. He was not hit by a bullet. He was riding a Diamond A horse when at Holming's ranch—Lordsburg Liberal.

Sheriff Fly returned today from Phoenix having delivered his insane patient to the authorities. He went to Bisbee before returning.

Three sheriffs in charge of two prisoners on the way from Phoenix to Yuma the other evening, went to sleep while the prisoners took French leave.

The I. O. O. F. at Jerome will be honored with the presence of Governor B. J. Franklin on the occasion of the institution of a lodge at that place on the 7th.

An unvaried rumor is afloat that the Gila Valley, Globe and Northern road will new build on to Globe, consent having been obtained of the Apaches.

Dr. Alex. Tripple died on Tuesday in New York. Dr. Tripple was one of the best known men in Arizona, having been superintendent of the Old Dominion.

The United States paid \$3,000,000 for imported sugar during the year ended August 1, 1896. This furnishes a wide margin for the expansion of the beet sugar industry.

## DEATH VALLEY.

### Its Grandeur, Majesty and Beauty Portrayed.

A Colonel Brooks, who recently took a trip across Death valley, thus speaks to a Yuma Sentinel reporter of that wonder of nature.

"It is truly regretful that this phenomenal country cannot be seen by the thousands of people who read of its indescribable wonders. He says that when the descriptive powers of our most able writers have been exhausted in an effort to convey to the public a correct impression of the precipitous depths, grandeur of its combinations of all known minerals, and adding to this the solemnity of awe, of future, of death to many travelers, the reader's most grasping imagination is still vague, and as far short of the reality as is the possibility of an ex-drinking the waters of the San Francisco bay.

"An indefinite idea of the exceeding grandeur of the salt precipitates in length—that is situated at the head of Death valley, as the sun shines upon it each day of the 245 of the year, may be obtained by directing one's thoughts or imagination to the sublimity of Niagara Falls, when its dimensions have been multiplied by one hundred, and the water is converted into transparent iceles with the reflecting brilliancy of ten thousand chandeliers, and then by some unnatural expanse of the imagination an appreciative sense of the stubborn facts is had; of the deep brown or oxide of iron color, the crystallizing salt extending over fifty miles in the lowest depth of Death valley.

"There is nothing, not anything, that has a name or a shape, more abrupt, uneven, or topsy-turvy, than this mass of salt as spewed from the unknown depths of the earth. The projecting points, one above another, are generally oblong, and of all dimensions from one inch to five feet, and as the inner pressure of the unknown forces have thrust and crowded the millions of varied forms and sizes of fragments promiscuously to the surface, it presents a distressing conclusion. The salt is of the ordinary hardness of stone.

## A TRAVELLER.

### Is to Walk 60,000 Miles Passes Benson.

A Bostonian named Clark passed through Benson yesterday enroute for Australia. Mr. Clark is to travel 60,000 miles in a year for which he gets \$1,800. He has now traveled about 1,200 miles. He is to have no money except what he earns on the way. He is a scene painter by trade and earns his money by making fancy paintings for saloonkeepers, druggists and barbers.

George Vanderman came in from Pearce yesterday. He reports the new camp coming to the front and the various prospects looking well. He is at work on a prospect of his own and states the outlook is very encouraging.

A British medical society has been trying to determine what is the usual hour of the day at which death occurs. Of 57,000 deaths reported, the majority occurred between the hours of 4 and 10 in the morning.

Another drummer arrived on the coach today. All commercial men state that in proportion to population Tombstone still holds its own with any of the towns of the territory as they judge from the number of orders received.

This is the way an exchange asks for news: "If you know of anything we don't know which people ought to know, if it is worth knowing don't you know it is your duty to let us know, that one people may also know that you know we ought to know, but don't know, because you know, but won't let us know."

Already the increase in the volume of letters in the Tombstone postoffice is noticeable during the holidays. Catalogues galore arrive daily to catch some of the holiday trade, but our citizens should remember that our merchants will have ample stock of holiday goods on hand from which to select.

Fresh Fish is received every Thursday at Noble's.

## INDIAN LEGEND.

### An old Indian Tradition which Made the Apaches Fear.

Prof. Forbes will leave in the morning on an outing to the Babquivari peak. He will not go prepared to climb that famous rock but will make a preliminary examination of it preparatory to future action in that direction. The rock has never yet been surmounted, its precipitous sides making such achievement almost impossible. Indian legend is however on the contrary. It is told that at one time in days gone by, a number of Papago Indians with their women and children were driven by a gang of marauding Apaches to the summit of the rock and held there until starvation compelled their death. They did not surrender as expected to their bloodthirsty foes, but like the Jews in the temple at Jerusalem, by Titus they killed their women and children and threw their bodies over the cliff and then followed by themselves. This act of courageous desperation on the part of the Papagos so inspired the Apaches with superstitious fear that they at once broke camp and it is said that for more than one hundred years afterwards an Apache never stood within the shadow of that great rock—Tucson Citizen.

## New line of clocks at Wolcott's.

## Advertised Letters.

The following is a list of letters remaining in the general delivery at the Tombstone postoffice for the week ending November 28, 1896: B. Hanroby, D. McDonald, Bessie Wand, J. Seamon, W. Miller, Francisco Valdez, D. Harrington.

When calling for above letters, say advertised, giving date of advertisement.

EMIL SYDOW, P. M.

Cripple Creek Colorado, is said to have 9,000 mining claims, one half of which are patented. This would represent nearly \$500,000 of required assessment work in that one camp this year.

## ON TO GLOBE.

### The Right of Way Believed to Have Been Granted.

It is reported that the government has granted the right of way for the G. V. G. & N. railroad across the San Carlos reservation. If this be true the work of extending the road northward through the reservation to Globe will begin very soon, and Globe will feel the advantages of a railroad very shortly.

## FOR OVER FIFTY YEARS.

An old, well-tried remedy, Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by druggist in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

Cranberries, eastern apples and Buckwheat flour at Wolcott's.

## Two Lives Saved.

Mrs. Phoebe Thomas of Junction City Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery cured her, and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results of which there are samples that prove the wonderful efficacy of the medicine in coughs and colds. Free trial bottles at Tombstone and Bisbee drug stores. Regular size 50c and \$1.00.
